

# SECURITY POLICY

When purchasing from Volleyball South Australia your financial details are passed through a secure Westpac Bank server using the latest 128-bit SSL (secure sockets layer) encryption technology. 128-bit SSL encryption is approximated to take at least one trillion years to break, and is the industry standard.

We do not store your credit card details on our server (but they do remain in secure records within the Westpac Bank computer system).

Please [contact us](#) directly if you have any questions regarding our Security Policy.
