For example, an athlete plays 5 rounds out of 12 in a season and thus cannot participate in finals if 5 rounds are less than fifty per cent. Matches played in any division may contribute to athlete qualification for that division or a higher division provided that they are played in separate rounds of the SAVL competition.

11.4.2 An athlete who participates in two separate divisions in the one round of SAVL as authorised under clause 8 shall register only one match, in the lowest division in which the athlete competed, for finals qualification purposes.

The supporting evidence/documentation must clearly state the dates for which the athlete was unavailable to compete in the SAVL Seniors competition and must be received by the Head of Participation no later than one week before the final series start date. It is recommended to provide as much detail within the exemption application as possible. If the athlete satisfies the above and has been noted on the score sheet as having competed in at least fifty per cent, but not less than two matches, of the relevant scheduled matches for which the athlete was available, they shall be permitted to compete in the final's series in the relevant SAVL division for which the athlete qualifies.

11.4.6 If, due to injury or other medical condition (including pregnancy), an athlete is unable to qualify for the final series under the provisions of clause 11.4.4, they must provide satisfactory evidence, in the form of a medical certificate or signed letter from a qualified medical practitioner, to support their inability to meet the requirements to the SAVL Athlete Qualification and Disputes Committee. The supporting evidence must clearly state the duration for which the athlete was unable to compete in the SAVL Seniors competition and must be received by the Head of Participation no later than one week before the final series start date. If the athlete satisfies the above and has been noted on scoresheets as having competed in at least fifty percent, but not less than two matches, of the scheduled matches for the season not covered by the medical evidence, they shall be permitted to compete in the final's series in the relevant SAVL division for which the athlete qualifies.

Appendix 2 – 12 Substitution Rule

The Twelve-Substitution Rule works as follows:

- Any number of athletes may substitute into the same rotational position on court within the following limitations:
- There is a maximum of 12 substitutions permitted per set per team.
- An athlete may only take the court three times per set, i.e. when the athlete's number has been recorded on the scoresheet for the third time, that athlete may be substituted off but may not enter the court again. The scorer circling the athlete's number indicates this third appearance.
- Different athletes may substitute into the one rotational position, except that once substituted for a particular position they are "locked" into that group of athletes. (i.e. athletes who have substituted for that position) and may not substitute within another group.

I 10		II 4		III 11		IV 2		V 1		VI 7	
6	9					5					
10	3					2					
9						5					
8						2					
10											
8											

- In the example shown above, we can see that the starting line-up is 10, 4, 11, 2, 1 and 7. This means that these athletes have taken the court once already. The coach has seen fit to substitute into the position "I" group the athletes 6, 9, 8 and 3. Number 10 has taken the court three times and thus has finished his/her set as indicated by the circle. (As has athlete 2 in position IV).
- These athletes: 10, 6, 9, 8 and 3, are locked into the group in position I and none of them can be used to substitute into another position in this set. For example, athlete 9 has only appeared twice so far and can therefore make another appearance on court but only in position I and only if no more than twelve substitutions are used per set. In the example shown, all twelve substitutions have been used.
- When recording the substitutions go DOWN THE LEFT side column for each position and when the left is full go DOWN THE RIGHT side column.
